

What a Sad State of Affairs??!

by
Paul L. Nally

Can there be any hope for this Nation that shall stop the aversion of some to the liberties that are the property of others, whether it be a vote or the right to refuse anything being put into our bodies? Is there hope for a cessation of avarice and the whoring after power or its perception in furtherance of a twisted and demented ego or perverted intellect devoid of any semblance of common sense or integrity?

As Taylor Caldwell's Cicero observed, "A nation can survive its fools, and even the ambitious. But it cannot survive treason from within," yet the historical Cicero, in his oratories, did warn of "threats domestic".

Here we are today, confused by this concern and that concern, and a press seemingly contemplating one editorial comment after another to be interjected in a "reporting of news," trying to tell this mass of people "we need to believe this or that" or "you need to do this for your protection from death" and never taking the time to just simply report the facts in their entirety, so this people might arrive at a conclusion which make sense to them.

Among the worst enemies within is now become our own government with its high paid agents willingly plying the grave injustices and threats, not only to our lives, or at least our safety from grave bodily injury, but threatening our very ability to maintain the strength of our military.

In a move reminiscent and comparative to, what Congressional Candidate, Surrea Ivy has reminded us of, The Tuskegee Experiment; our Department of Defense now wants to aid Big Pharma and the CDC in a grand experiment upon one control group that has little hope of resisting ... our Military men and women!

From this ol' former MSgt. to all his brothers and sisters in arms... You have been trained in the Art of War, you know how and when to use the weapons thereof, but you have not been trained in the Art of War when your enemy is within, and sometimes clothed in the raiment of officialdom. It requires knowledge of more civilized weapon... and YOU must learn these and know how and when they are to be used.

If you have not already been, you are about to be ordered to take a "jab." I must remind you of your oath and your obedience to any LAWFUL order given you. As to that LAWFUL order... hold it up to the light of one of the civil weapons at your disposal... Precedent Case Law – and hear the words of Judge Sullivan,

As a result of this status, the DoD is in violation of 10 U.S.C. § 1107, Executive Order 13139, and DoD Directive 6200.2. Thus, because the plaintiffs are likely to prevail on the merits, defendants will not face substantial harm by the imposition of an injunction, the public interest is served, and plaintiffs face irreparable harm, the Court finds that the plaintiffs meet the requirements for a Preliminary Injunction.

The women and men of our armed forces put their lives on the line every day to preserve and safeguard the freedoms that all Americans cherish and enjoy. Absent an informed consent or presidential waiver, the United States cannot demand that members of the armed forces also serve as guinea pigs for experimental drugs.

Doe # 1 v. Rumsfeld, 297 F.Supp.2d 119, 134 (2003).

This, Ladies and Gentlemen under Arms is one of the weapons you must learn... and use... to protect yourselves so that you may protect us!
